## **DETAILED ACTION**

### ***Response to Arguments***

2. Applicant's arguments with respect to claims 1-3, 9, 28, 29, and 33 have been considered but are moot in view of the new ground(s) of rejection.

### ***Drawings***

3. The drawings were received on 10/14/3. These drawings are acceptable.

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

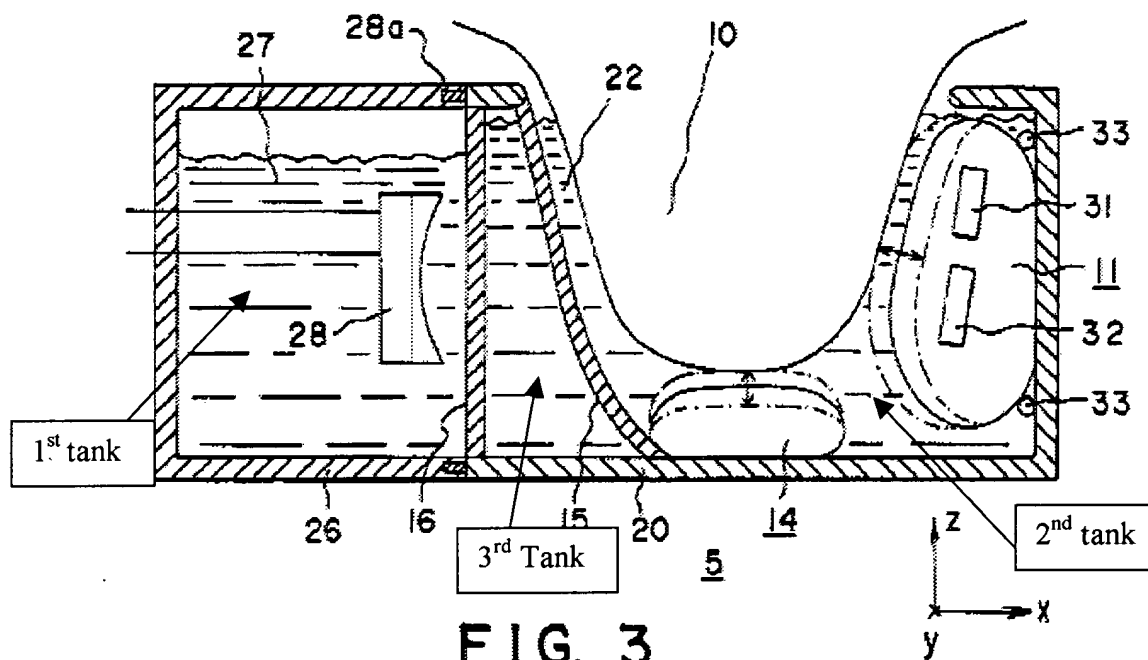

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-3, 9, 28, 29, and 33 are rejected under 35 U.S.C. 102(b) as being anticipated by Bechtold et al. (US 6,128,523 of record).

Bechtold teaches in Fig. 3 (reproduced below), all the limitations of the claimed subject matter including an ultrasonic imaging apparatus comprising first and second tanks filled with a

selected ultrasonically transmissive fluid, the first tank containing the ultrasonic transducer (inherently inside the ultrasound device (28), and a third tank positioned intermediate the first and second tanks.

*Allowable Subject Matter*

6. Claims 4-8, 10-18, 30-32, and 34-38 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. The following is a statement of reasons for the indication of allowable subject matter: none of the prior art, alone or in combination teaches the claimed features recited in claims 4-8, 10-18, 30-32, and 34-38.
